Hi all,

Building from the success of the [Male Ally workshop](#) last semester, we are organizing a monthly "Gender, Power Dynamics, and Sexual Harassment in Tech Roundtable Discussion" monthly lunch. The first one will be this **Wednesday (2/14) from 1:30-2:30pm in CS 150/151**.

This week we ask you to read [this blog post by Kristian Lum](#). We feel she brings up a number of important issues facing academia, the tech industry, and society in general. We hope to have an earnest discussion of these issues and brainstorm strategies to improve our current and future working environments.

This discussion is primarily aimed at graduate students but faculty are welcome to attend. Lunch will be provided due to the gracious funding of Dean Haas.

Hope to see you there,
Katie
